Playgroup is a regular meeting of parents and carers with their children, aged 0-5 years, aimed at forging the bonds essential for child development, parental confidence, and community cohesion. A playgroup is a safe and welcoming space where babies and children can learn and develop through play with the support of their parents or carers.

## **Benefits of playgroup**

- A wide variety of play-based learning experiences aimed at fostering children's social, emotional, physical, and cognitive development
- Meaningful social interaction for both children and adults
